

*Change can be hard, but it doesn't have to be ...
Give us 6 hours and we'll get your team a map to results!*

What Makes Change Difficult

- * Lack of a shared vision for desired outcomes
- * Leaders and key contributors not working to their full potential
- * Competing perspectives on best approaches
- * Conflict among team members
- * Ineffective communication leading to missed deadlines, decreased engagement and low morale

The Results Roadmap Process

- * Highly engaging and experiential
- * Clearly establishes desired result with authentic alignment, buy-in and full engagement
- * Reveals hidden obstacles and positive patterns
- * Defines critical path to key results
- * Delivers action and accountability plan
- * Creates sustainable change practices

Benefits of the Results Roadmap

- * Clarify the desired result/outcome and ensure full team alignment
- * Understand patterns of thinking, behaviors and habits that lead to (or detract from) peak performance
- * Focus on the right actions and eliminate distractions to create actionable and sustainable change

Ideal Participants

- * Executive Teams
- * Management Teams
- * Project Teams (IT/Business)
- * Innovation Teams
- * Boards of Directors

Delivery of the Results Roadmap

- * **For Teams:** Quickly align both new and existing teams. Unleash the creativity and problem-solving skills in a team to drive innovation. Leverage the powerful thinking and actions that create a results orientation and a positive culture change.
- * **For Groups:** Fast track the achievement of personal performance and individual objectives in a group setting. Ideal for use with work groups, departments and professional development programs.
- * **For Individuals:** Convert goals into a plan of action to make results happen. Activate the strategies that will work and reveal essential insights. Ideal for coaching and professional development programs for both individuals and high potentials.
